Saddleback Spur

The Saddleback Spur provides access to Rock Pond and Midway Pond and offers views of the surrounding mountains. This trail network offers 2.5 miles. It's a family-friendly hike with year-round access and a remote feel.

The Fly Rod Crosby Trails

Explore a series of three loop hikes that offer access to the landscape, history, and recreational opportunities of the High Peaks.

Named for Cornelia "Fly Rod" Crosby, these trails span the region she loved, with trailheads at three locations.

The Fly Rod Crosby Trails include:

- Sandy River Rangeley Lakes Railroad Loop in Phillips
- Reeds Loop in Madrid
- Saddleback Spur in Dallas Plantation

Is this section of trail on public land?

No. The Saddleback Spur trail is on land that is privately owned. The landowners have granted permission for passage through their land. Stay on the designated trail and practice carry-in carry-out ethics.

Directions

From Rangeley: Turn onto and follow Dallas Hill Road for 2.5 miles. Take a right on Saddleback Mountain Road and follow for 4.6 miles to the base of the ski area. Bear right at the ski lodge and keep left on Rock Pond Road passing condos.

The parking area is on the left where the road terminates. The trailhead is beyond the rock barrier as you enter the woods.

High Peaks Alliance

Our mission is to ensure and enhance public access and opportunities for recreation in Maine's High Peaks region. Learn more:
